**American Reliance, Inc. (AMREL) to provide power supplies and loads to Lockheed Martin for
multibillion dollar Joint Strike Fighter project**

Arcadia, CA – Sept. 24, 2002 -- American Reliance, Inc. received an initial order from Lockheed Martin, valued at over \$1 million, to provide power supplies and electronic loads for ATE test stations to be used in the \$200 billion Joint Strike Fighter (JSF) Project.

“AMREL appreciates the opportunity to work with Lockheed Martin in relations to the JSF project and looks forward to the prospect of working with them in the future,” said Linda Talcott, AMREL’s director of corporate communications.

The JSF project was awarded last year to an international team led by Lockheed Martin. According to Lockheed Martin, the JSF project team will work to build Joint Strike Fighter planes for the U.S. Air Force, Navy and Marine Corps, as well as the U.K. Royal Air Force and Navy.

Headquartered in Arcadia, Ca., AMREL Corporation is comprised of three divisions, American Reliance, AMREL Systems, and AMREL Telecom- each of which is dedicated to the design, development and manufacturing of specialized solutions within their respective markets.

AMREL products include a wide selection of programmable power supplies and electronic loads, telecommunication test equipment, and AMREL’s ROCKY line of fully rugged computer systems. Please visit www.amrel.com for more information about AMREL and AMREL products.
